"At Merck, we are committed to inclusion. This is evident in the colleagues that we collaborate with every day and the suppliers we engage throughout our supply chain. Minority, women, veteran, LGBT and people with disability-owned businesses as well as small business enterprises are included in Merck's supplier diversity program. In fact, it is a Merck policy that small and diverse suppliers have an equal opportunity to be included in our strategic sourcing and procurement process. This fosters a solid and inclusive supply-base that is reliable, innovative and cost-effective."
