Instrumental Open

Voiceover

:08

Merck and Company is a global research-driven pharmaceutical company dedicated to improving the health and lives of patients everywhere, everyday. Merck discovers, develops, manufactures and markets vaccines and medicines that are distributed to patients in more than 140 countries - and have been for over 100 years.

Jody Shollenberger, Senior Marketing Manager Vaccine Division

:27

There's no doubt that I can get up every morning and come and do my job and know that I'm helping someone somewhere

Matthew Walker III, Senior Research Scientist

:32

Everyday you have that feeling that inclination that you have a chance to do something a little better than you did it before

Voiceover

:37

As one of the world's largest pharmaceutical companies, Merck is driven to making a difference through their commitment to research and development -

Rose Ann Blenman – Abange, Senior Research Chemist

:45

Without research in a sense Merck couldn't exist is the very essence of who we are

Voiceover

:52

and to science, manufacturing and engineering.

Aaron Cote, Associate Scientific Director

:55 you get to see so much good science and you are solving many problems

Voiceover

:59

In a place where patients come first, Merck recognizes that its employees are its single greatest asset in bringing its achievements to patients around the world. Merck rewards their people with a commitment to a healthy work-life balance environment.

Awilda Borres, Director, Organizational Development and Change Lead

1:12

Their values, to Merck in terms of work life balance are the best I have ever seen.

Voiceover

1:17

Its facilities offer employees the opportunity to participate in a variety of activities, organizations and Merck perks to help them maintain a healthy and comfortable balance. Perks like dry-cleaning, banking, health services, a state of the art fitness and wellness center and a Merck company store.

Voiceover

1:34

They're little ways to say thanks to the thousands of talented employees that are dedicated to the life changing products produced and distributed by Merck to millions.

Deborah Dagit, VP and Chief Diversity Office

1:43

we are able to attract a lot of people who are passionate about our products

Brian Burlingame, Human Resources Leader

1:51

I am so proud of the team I am a part of, I don't say that they work for me, we are all working together and that really is a mindset for all of Merck

Instrumental Transition

Voiceover

2:03

It's the leadership and collaboration of Merck's people that led them to be recognized by several industry magazines as a top ranked company to work for scientists, women and minorities.

Nicole Stovall, Assistant Council

2:13 there is a real strong people component to our job where people bring in so many different parts of their lives and personalities

Voiceover

2:20

Its also that strong commitment to employees that's kept Merck discovering and developing vaccines and medicines that address unmet medical needs. Thanks to the work of Merck scientists, they're striving to find cures for diseases like Alzimers, diabetes and cancer in the United States and around the world, and they're making progress everyday.

Roseanne

2:41

I realize that what we do everyday, you know, could potentially make a difference to people, sometimes its as close as your mother, or your friend

Aaron

2:50

there is a lot of satisfaction in doing a job that you know really matters and its actually improving the quality of human life.

Joel

2:56

At the end of the day when children are running around and laughing and playing and not in a hospital bed or in a breathing chamber that's a good thing.

Voiceover

3:06

Merck is looking for candidates that believe in their commitment to make a difference in the areas of science, research and development, manufacturing and engineering, IT, Human Resources, Sales and Marketing, Legal and Finance.
