## Chlorhexidine (4.79%) Formulation

Version	Revision Date:	SDS Number:	Date of last issue: 11/21/2023
2.1	09/06/2024	10839984-00007	Date of first issue: 08/25/2022

### **SECTION 1. IDENTIFICATION**

Product name	:	Chlorhexidine (4.79%) Formulation
Other means of identification	:	Hibitane (A000585)

#### Manufacturer or supplier's details

Company name of supplier	:	Merck & Co., Inc
Address	:	126 E. Lincoln Avenue
		Rahway, New Jersey U.S.A. 07065
Telephone	:	908-740-4000
Emergency telephone	:	1-908-423-6000
E-mail address	:	EHSDATASTEWARD@merck.com

### Recommended use of the chemical and restrictions on use

Recommended use	:	Veterinary product
Restrictions on use	:	Not applicable

#### **SECTION 2. HAZARDS IDENTIFICATION**

GHS classification in accore	dan	ce with the Hazardous Products Regulations
Eye irritation	:	Category 2A
Specific target organ toxicity - repeated exposure	:	Category 2 (Liver)
GHS label elements		
Hazard pictograms	:	
Signal Word	:	Warning
Hazard Statements	:	H319 Causes serious eye irritation. H373 May cause damage to organs (Liver) through prolonged or repeated exposure.
Precautionary Statements	:	<ul> <li>Prevention:</li> <li>P260 Do not breathe mist or vapors.</li> <li>P264 Wash skin thoroughly after handling.</li> <li>P280 Wear eye protection and face protection.</li> <li>Response:</li> <li>P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.</li> <li>P314 Get medical attention if you feel unwell.</li> <li>P337 + P313 If eye irritation persists: Get medical attention.</li> </ul>
		Disposal:

according to the Hazardous Products Regulations

## Chlorhexidine (4.79%) Formulation

Version	Revision Date:	SDS Number:	Date of last issue: 11/21/2023
2.1	09/06/2024	10839984-00007	Date of first issue: 08/25/2022

P501 Dispose of contents and container to an approved waste disposal plant.

#### Other hazards

None known.

#### SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance / Mixture : Mixture

#### Components

Chemical name	Common Name/Synonym	CAS-No.	Concentration (% w/w)
Chlorhexidine	No data availa- ble	55-56-1	4.79
Nonylphenol, ethox- ylated	Poly(oxy-1,2- ethanediyl), .alp ha (nonylphenyl)- .omega hydroxy-	9016-45-9	1.25

#### **SECTION 4. FIRST AID MEASURES**

General advice	:	In the case of accident or if you feel unwell, seek medical advice immediately. When symptoms persist or in all cases of doubt seek medical advice.
If inhaled	:	If inhaled, remove to fresh air. Get medical attention if symptoms occur.
In case of skin contact	:	In case of contact, immediately flush skin with soap and plenty of water. Get medical attention if symptoms occur.
In case of eye contact	:	In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. If easy to do, remove contact lens, if worn. Get medical attention.
If swallowed	:	If swallowed, DO NOT induce vomiting. Get medical attention if symptoms occur. Rinse mouth thoroughly with water.
Most important symptoms and effects, both acute and delayed	:	Causes serious eye irritation. May cause damage to organs through prolonged or repeated exposure.
Protection of first-aiders	:	First Aid responders should pay attention to self-protection, and use the recommended personal protective equipment when the potential for exposure exists (see section 8).
Notes to physician	:	Treat symptomatically and supportively.

#### **SECTION 5. FIRE-FIGHTING MEASURES**

Suitable extinguishing media : Water spray Alcohol-resistant foam Carbon dioxide (CO2)

# Chlorhexidine (4.79%) Formulation

Vers 2.1	sion	Revision Date: 09/06/2024		9S Number: 839984-00007	Date of last issue: 11/21/2023 Date of first issue: 08/25/2022
				Dry chemical	
	Unsuita media	able extinguishing	:	None known.	
	Specific fighting	c hazards during fire	:	Exposure to comb	pustion products may be a hazard to health.
	Hazard ucts	ous combustion prod-	:	Carbon oxides	
	Specific ods	c extinguishing meth-	:	cumstances and t Use water spray t	measures that are appropriate to local cir- he surrounding environment. o cool unopened containers. ged containers from fire area if it is safe to do
		protective equipment fighters	:		e, wear self-contained breathing apparatus. ective equipment.

#### SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protec- tive equipment and emer- gency procedures	Use personal protective equipment. Follow safe handling advice (see section 7) and personal protective equipment recommendations (see section 8).
Environmental precautions	Avoid release to the environment. Prevent further leakage or spillage if safe to do so. Prevent spreading over a wide area (e.g., by containment or oil barriers). Retain and dispose of contaminated wash water. Local authorities should be advised if significant spillages cannot be contained.
Methods and materials for containment and cleaning up	Soak up with inert absorbent material. For large spills, provide diking or other appropriate containment to keep material from spreading. If diked material can be pumped, store recovered material in appropriate container. Clean up remaining materials from spill with suitable absorbent. Local or national regulations may apply to releases and disposal of this material, as well as those materials and items employed in the cleanup of releases. You will need to determine which regulations are applicable. Sections 13 and 15 of this SDS provide information regarding certain local or national requirements.

### SECTION 7. HANDLING AND STORAGE

according to the Hazardous Products Regulations

# Chlorhexidine (4.79%) Formulation

# Chlorhexidine (4.79%) Formulation

Version 2.1	Revision Date: 09/06/2024		98 Number: 839984-00007	Date of last issue: 11/21/2023 Date of first issue: 08/25/2022	
			Exposure time: 72 Method: OECD To Remarks: Based of		
Toxi icity	city to fish (Chronic tox- )	:	Exposure time: 10	atipes (Japanese medaka)): > 0.1 - 1 mg/l 00 d on data from similar materials	
aqua	city to daphnia and other atic invertebrates (Chron- xicity)	:	NOEC (Mysidopsis bahia (opossum shrimp)): > 0.001 - 0.01 mg/l Exposure time: 28 d Remarks: Based on data from similar materials		
Pers	sistence and degradabili	ty			
<u>Con</u>	nponents:				
	orhexidine: legradability	:	Remarks: Not inh	erently biodegradable.	
	ylphenol, ethoxylated: legradability	:	: Result: Not readily biodegradable. Remarks: Based on data from similar materials		
Bioa	accumulative potential				
<u>Con</u>	nponents:				
Part	orhexidine: ition coefficient: n- nol/water	:	log Pow: 4.85		
Part	ylphenol, ethoxylated: ition coefficient: n- nol/water	:	log Pow: 4.48		
	<b>ility in soil</b> lata available				
Oth	er adverse effects data available				

#### SECTION 13. DISPOSAL CONSIDERATIONS

Disposal methods		
Waste from residues	:	Do not dispose of waste into sewer.
		Dispose of in accordance with local regulations.
Contaminated packaging	:	Empty containers should be taken to an approved waste handling site for recycling or disposal.
		If not otherwise specified: Dispose of as unused product.

according to the Hazardous Products Regulations

#### Special precautions for user

The transport classification(s) provided herein are for informational purposes only, and solely based upon the properties of the unpackaged material as it is described within this Safety Data Sheet. Transportation classifications may vary by mode of transportation, package sizes, and variations in regional or country regulations.

Version 2.1	Revision Date: 09/06/2024		DS Number: 0839984-00007	Date of last issue: 11/21/2023 Date of first issue: 08/25/2022
	es of key data used to le the Material Safety Sheet	:		data, data from raw material SDSs, OECD arch results and European Chemicals Agen- ropa.eu/
	Revision Date Date format		09/06/2024 mm/dd/yyyy	

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and shall not be considered a warranty or quality specification of any type. The information provided relates only to the specific material identified at the top of this SDS and may not be valid when the SDS material is used in combination with any other materials or in any process, unless specified in the text. Material users should review the information and recommendations in the specific context of their intended manner of handling, use, processing and storage, including an assessment of the appropriateness of the SDS material in the user's end product, if applicable.
