1. PRODUCT AND COMPANY IDENTIFICATION

Product name: Tildipirosin (4%) Formulation

Manufacturer or supplier’s details
Company: MSD
Address: No. 485 Jing Tai Road Pu Tuo District - Shanghai - China 200331
Telephone: 908-740-4000
Emergency telephone number: 86-571-87268110
E-mail address: EHSDATASTEWARD@msd.com

Recommended use of the chemical and restrictions on use
Recommended use: Veterinary product

2. HAZARDS IDENTIFICATION

Emergency Overview

| Appearance | liquid |
| Colour | No data available |
| Odour | No data available |

May cause an allergic skin reaction. Suspected of damaging fertility. Very toxic to aquatic life with long lasting effects.

GHS Classification

Skin sensitisation: Category 1
Reproductive toxicity: Category 2
Short-term (acute) aquatic hazard: Category 1
Long-term (chronic) aquatic hazard: Category 1

GHS label elements

Hazard pictograms:

- !: Warning

Hazard statements:
H317 May cause an allergic skin reaction.
H361f Suspected of damaging fertility.
H410 Very toxic to aquatic life with long lasting effects.
Tildipirosin (4%) Formulation

Precautionary statements:

Prevention:
P201 Obtain special instructions before use.
P202 Do not handle until all safety precautions have been read and understood.
P261 Avoid breathing mist or vapours.
P272 Contaminated work clothing should not be allowed out of the workplace.
P273 Avoid release to the environment.
P280 Wear protective gloves/protective clothing/eye protection/face protection.

Response:
P302 + P352 IF ON SKIN: Wash with plenty of water.
P308 + P313 IF exposed or concerned: Get medical advice/attention.
P333 + P313 If skin irritation or rash occurs: Get medical advice/attention.
P362 + P364 Take off contaminated clothing and wash it before reuse.
P391 Collect spillage.

Storage:
P405 Store locked up.

Disposal:
P501 Dispose of contents/container to an approved waste disposal plant.

Physical and chemical hazards
Not classified based on available information.

Health hazards
May cause an allergic skin reaction. Suspected of damaging fertility.

Environmental hazards
Very toxic to aquatic life. Very toxic to aquatic life with long lasting effects.

Other hazards which do not result in classification
None known.

3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance / Mixture: Mixture

Components

4. FIRST AID MEASURES

General advice: In the case of accident or if you feel unwell, seek medical ad-
vice immediately.
When symptoms persist or in all cases of doubt seek medical advice.

If inhaled
: If inhaled, remove to fresh air.
Get medical attention.

In case of skin contact
: In case of contact, immediately flush skin with soap and plenty of water.
Remove contaminated clothing and shoes.
Get medical attention.
Wash clothing before reuse.
Thoroughly clean shoes before reuse.

In case of eye contact
: Flush eyes with water as a precaution.
Get medical attention if irritation develops and persists.

If swallowed
: If swallowed, DO NOT induce vomiting.
Get medical attention.
Rinse mouth thoroughly with water.

Most important symptoms and effects, both acute and delayed
: May cause an allergic skin reaction.
Suspected of damaging fertility.

Protection of first-aiders
: First Aid responders should pay attention to self-protection,
and use the recommended personal protective equipment
when the potential for exposure exists (see section 8).

Notes to physician
: Treat symptomatically and supportively.

---

### 5. FIREFIGHTING MEASURES

**Suitable extinguishing media**
: Water spray
   Alcohol-resistant foam
   Carbon dioxide (CO2)
   Dry chemical

**Unsuitable extinguishing media**
: None known.

**Specific hazards during firefighting**
: Exposure to combustion products may be a hazard to health.

**Hazardous combustion products**
: Carbon oxides

**Specific extinguishing methods**
: Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.
Use water spray to cool unopened containers.
Remove undamaged containers from fire area if it is safe to do so.
Evacuate area.

**Special protective equipment for firefighters**
: In the event of fire, wear self-contained breathing apparatus.
Use personal protective equipment.

---

### 6. ACCIDENTAL RELEASE MEASURES

**Personal precautions, protective equipment and emergency procedures**
: Use personal protective equipment.
Follow safe handling advice and personal protective equipment recommendations.

**Environmental precautions**
: Discharge into the environment must be avoided.
Prevent further leakage or spillage if safe to do so.
Prevent spreading over a wide area (e.g. by containment or oil barriers).
Retain and dispose of contaminated wash water.
Local authorities should be advised if significant spillages cannot be contained.

Methods and materials for containment and cleaning up:
Soak up with inert absorbent material.
For large spills, provide dyking or other appropriate containment to keep material from spreading. If dyked material can be pumped, store recovered material in appropriate container.
Clean up remaining materials from spill with suitable absorbent.
Local or national regulations may apply to releases and disposal of this material, as well as those materials and items employed in the cleanup of releases. You will need to determine which regulations are applicable. Sections 13 and 15 of this SDS provide information regarding certain local or national requirements.

7. HANDLING AND STORAGE

Handling
Technical measures:
See Engineering measures under EXPOSURE CONTROLS/PERSONAL PROTECTION section.

Local/Total ventilation:
Use only with adequate ventilation.

Advice on safe handling:
Do not get on skin or clothing.
Avoid inhalation of vapour or mist.
Do not swallow.
Avoid contact with eyes.
Handle in accordance with good industrial hygiene and safety practice, based on the results of the workplace exposure assessment.
Take care to prevent spills, waste and minimize release to the environment.

Avoidance of contact:
Oxidizing agents

Storage
Conditions for safe storage:
Keep in properly labelled containers.
Store locked up.
Store in accordance with the particular national regulations.

Materials to avoid:
Do not store with the following product types:
Strong oxidizing agents

Packaging material:
Unsuitable material: None known.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

**Engineering measures**: Use appropriate engineering controls and manufacturing technologies to control airborne concentrations (e.g., drip-less quick connections).

All engineering controls should be implemented by facility design and operated in accordance with GMP principles to protect products, workers, and the environment.

Laboratory operations do not require special containment.

**Personal protective equipment**

- **Respiratory protection**: If adequate local exhaust ventilation is not available or exposure assessment demonstrates exposures outside the recommended guidelines, use respiratory protection.

  - **Filter type**: Particulates type
  - **Eye/face protection**: Wear safety glasses with side shields or goggles. If the work environment or activity involves dusty conditions, mists or aerosols, wear the appropriate goggles. Wear a faceshield or other full face protection if there is a potential for direct contact to the face with dusts, mists, or aerosols.

- **Skin and body protection**: Work uniform or laboratory coat.

- **Hand protection**:
  - **Material**: Chemical-resistant gloves

- **Hygiene measures**: If exposure to chemical is likely during typical use, provide eye flushing systems and safety showers close to the working place.

  When using do not eat, drink or smoke.

  Wash contaminated clothing before re-use.

  The effective operation of a facility should include review of engineering controls, proper personal protective equipment, appropriate degowning and decontamination procedures, industrial hygiene monitoring, medical surveillance and the use of administrative controls.

### 9. PHYSICAL AND CHEMICAL PROPERTIES

- **Appearance**: liquid
- **Colour**: No data available
- **Odour**: No data available
- **Odour Threshold**: No data available
- **pH**: No data available
- **Melting point/freezing point**: No data available
Tildipirosin (4%) Formulation

10. STABILITY AND REACTIVITY

Reactivity: Not classified as a reactivity hazard.
Chemical stability: Stable under normal conditions.
Possibility of hazardous reactions: Can react with strong oxidizing agents.
Conditions to avoid: None known.
Incompatible materials: Oxidizing agents.

Initial boiling point and boiling range: No data available
Flash point: No data available
Evaporation rate: No data available
Flammability (solid, gas): Not applicable
Flammability (liquids): No data available
Upper explosion limit / Upper flammability limit: No data available
Lower explosion limit / Lower flammability limit: No data available
Vapour pressure: No data available
Relative vapour density: No data available
Relative density: No data available
Density: 1.0499 g/cm³
Solubility(ies) Water solubility: No data available
Partition coefficient: n-octanol/water: No data available
Auto-ignition temperature: No data available
Decomposition temperature: No data available
Viscosity Viscosity, kinematic: No data available
Explosive properties: Not explosive

Oxidizing properties: The substance or mixture is not classified as oxidizing.
Hazardous decomposition products: No hazardous decomposition products are known.

11. TOXICOLOGICAL INFORMATION

Exposure routes:
- Inhalation
- Skin contact
- Ingestion
- Eye contact

Acute toxicity
Not classified based on available information.

Components:

Tildipirosin:
- Acute oral toxicity: LD50 (Rat): > 2,000 mg/kg
  LD50 (Mouse): > 2,000 mg/kg
- Acute dermal toxicity: Remarks: No data available
- Acute toxicity (other routes of administration): LD50 (Mouse): 6.25 - 12.5 mg/kg
  Application Route: Intravenous

Citric acid monohydrate:
- Acute oral toxicity: LD50 (Mouse): 5,400 mg/kg
- Acute dermal toxicity: LD50 (Rat): > 2,000 mg/kg
  Method: OECD Test Guideline 402
  Assessment: The substance or mixture has no acute dermal toxicity

Skin corrosion/irritation
Not classified based on available information.

Components:

Tildipirosin:
- Species: Rabbit
  Result: No skin irritation

Citric acid monohydrate:
- Species: Rabbit
  Result: No skin irritation

Serious eye damage/eye irritation
Not classified based on available information.

Components:

Tildipirosin:
- Species: Rabbit
Tildipirosin (4%) Formulation

**Result**: No eye irritation

**Citric acid monohydrate**:  
**Species**: Rabbit  
**Result**: Irritation to eyes, reversing within 21 days

**Respiratory or skin sensitisation**

**Skin sensitisation**  
May cause an allergic skin reaction.

**Respiratory sensitisation**  
Not classified based on available information.

**Components**:

**Tildipirosin**:
- **Test Type**: Maximisation Test  
- **Exposure routes**: Dermal  
- **Species**: Guinea pig  
- **Result**: Sensitiser

**Germ cell mutagenicity**  
Not classified based on available information.

**Components**:

**Tildipirosin**:
- **Genotoxicity in vitro**:  
  Test Type: Bacterial reverse mutation assay (AMES)  
  Metabolic activation: with and without metabolic activation  
  Result: negative  
  Test Type: Chromosomal aberration  
  Test system: Human lymphocytes  
  Metabolic activation: with and without metabolic activation  
  Result: negative  
  Test Type: In vitro mammalian cell gene mutation test  
  Test system: mouse lymphoma cells  
  Metabolic activation: with and without metabolic activation  
  Result: negative

- **Genotoxicity in vivo**:  
  Test Type: Micronucleus test  
  Species: Mouse  
  Application Route: Oral  
  Result: negative

**Citric acid monohydrate**:
- **Genotoxicity in vitro**:  
  Test Type: Bacterial reverse mutation assay (AMES)  
  Result: negative  
  Test Type: in vitro micronucleus test
## Genotoxicity in vivo

- **Test Type**: Mutagenicity (in vivo mammalian bone-marrow cytogenetic test, chromosomal analysis)
- **Species**: Rat
- **Application Route**: Ingestion
- **Result**: negative

## Carcinogenicity

Not classified based on available information.

## Reproductive toxicity

Suspected of damaging fertility.

### Components:

#### Tildipirosin:

- **Effects on fertility**
  - **Test Type**: Two-generation reproduction toxicity study
  - **Species**: Rat
  - **Application Route**: Oral
  - **General Toxicity F1**: LOAEL: 80 mg/kg body weight
  - **Symptoms**: Effects on F1 offspring
  - **Result**: Effects on reproduction parameters

- **Effects on foetal development**
  - **Test Type**: Embryo-foetal development
  - **Species**: Rabbit, females
  - **Embryo-foetal toxicity**: NOAEL: 30 mg/kg body weight
  - **Symptoms**: Reduced body weight
  - **Result**: No teratogenic potential
  - **Remarks**: The effects were seen only at maternally toxic doses.

  - **Test Type**: Embryo-foetal development
  - **Species**: Rat, female
  - **Embryo-foetal toxicity**: NOAEL: 30 mg/kg body weight
  - **Symptoms**: Reduced body weight
  - **Result**: No teratogenic potential
  - **Remarks**: The effects were seen only at maternally toxic doses.

#### Citric acid monohydrate:

- **Effects on foetal development**
  - **Test Type**: Embryo-foetal development
  - **Species**: Rat
  - **Application Route**: Ingestion
  - **Result**: negative

---

**Remarks**:

The effects were seen only at maternally toxic doses.
## Tildipirosin (4%) Formulation

### Components:

#### Tildipirosin:
- **Target Organs:** Heart, Cardio-vascular system, Nervous system, eye - retina, Thyroid, thymus gland, spleen, Pancreas
- **Assessment:** May cause damage to organs through prolonged or repeated exposure.

#### Repeated dose toxicity

Tildipirosin (4%) Formulation

Application Route: Ingestion
Exposure time: 10 Days

Aspiration toxicity
Not classified based on available information.

Experience with human exposure

Components:

Tildipirosin:
General Information: No human information is available.

12. ECOLOGICAL INFORMATION

Ecotoxicity

Components:

Tildipirosin:
Toxicity to fish: LC50 (Pimephales promelas (fathead minnow)): > 138 mg/l
Exposure time: 96 h
Method: OECD Test Guideline 203

Toxicity to daphnia and other aquatic invertebrates: EC50 (Daphnia magna (Water flea)): 32 mg/l
Exposure time: 48 h
Method: OECD Test Guideline 202

Toxicity to algae/aquatic plants: EC50 (Pseudokirchneriella subcapitata (green algae)): 0.12 mg/l
Exposure time: 72 h
Method: OECD Test Guideline 201

NOEC (Pseudokirchneriella subcapitata (green algae)): 0.047 mg/l
Exposure time: 72 h
Method: OECD Test Guideline 201

EC50 (Anabaena flos-aquae (cyanobacterium)): 0.027 mg/l
Exposure time: 72 h
Method: OECD Test Guideline 201

NOEC (Anabaena flos-aquae (cyanobacterium)): 0.00011 mg/l
Exposure time: 72 h
Method: OECD Test Guideline 201

M-Factor (Acute aquatic toxicity): 10
M-Factor (Chronic aquatic toxicity): 100

Toxicity to microorganisms: EC50: 112.4 mg/l
Exposure time: 3 h
Test Type: Respiration inhibition
Method: OECD Test Guideline 209

NOEC: 0.23 mg/l
Exposure time: 3 h
Test Type: Respiration inhibition
Method: OECD Test Guideline 209

**Citric acid monohydrate:**

Toxicity to fish: $\text{LC50 (Pimephales promelas (fathead minnow))}: > 100 \text{ mg/l}$
Exposure time: 96 h

Toxicity to daphnia and other aquatic invertebrates: $\text{EC50 (Daphnia magna (Water flea))}: 1,535 \text{ mg/l}$
Exposure time: 24 h

**Persistence and degradability**

**Components:**

**Tildipirosin:**

Biodegradability: Result: Not readily biodegradable.
Biodegradation: 14.7 %
Exposure time: 28 d
Method: OECD Test Guideline 301B

**Citric acid monohydrate:**

Biodegradability: Result: Readily biodegradable.
Biodegradation: 97 %
Exposure time: 28 d
Method: OECD Test Guideline 301B

**Bioaccumulative potential**

**Components:**

**Citric acid monohydrate:**

Partition coefficient: n-octanol/water

$\text{log Pow}:-1.72$

**Mobility in soil**

No data available

**Other adverse effects**

No data available

**13. DISPOSAL CONSIDERATIONS**

**Disposal methods**

Waste from residues: Dispose of in accordance with local regulations.
Contaminated packaging: Empty containers should be taken to an approved waste handling site for recycling or disposal.
If not otherwise specified: Dispose of as unused product.
