SAFETY DATA SHEET
according to the Hazardous Products Regulations

Tricaine Mesylate

SECTION 1. IDENTIFICATION

Product name : Tricaine Mesylate
Product code : 3-Ethoxycarbonylanilinium methanesulphonate, Tricaine
Other means of identification : No data available

Manufacturer or supplier's details
Company name of supplier : Merck & Co., Inc
Address : 126 E. Lincoln Avenue
           Rahway, New Jersey U.S.A. 07065
Telephone : 908-740-4000
Emergency telephone : 1-908-423-6000
E-mail address : EHSDATASTEWARD@merck.com

Recommended use of the chemical and restrictions on use
Recommended use : Veterinary product
Restrictions on use : Not applicable

SECTION 2. HAZARDS IDENTIFICATION

GHS classification in accordance with the Hazardous Products Regulations
Not a hazardous substance or mixture.

GHS label elements
No hazard pictogram, no signal word, no hazard statement(s), no precautionary statement(s) required

Other hazards
Dust contact with the eyes can lead to mechanical irritation.
Contact with dust can cause mechanical irritation or drying of the skin.
May form explosive dust-air mixture during processing, handling or other means.

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance / Mixture : Substance
Substance name : 3-Ethoxycarbonylanilinium methanesulphonate
CAS-No. : 886-86-2
Common Name/Synonym : No data available

Components

</table>

* Actual concentration or concentration range is withheld as a trade secret

SECTION 4. FIRST AID MEASURES
General advice: In the case of accident or if you feel unwell, seek medical advice immediately. When symptoms persist or in all cases of doubt seek medical advice.

If inhaled: If inhaled, remove to fresh air. Get medical attention if symptoms occur.

In case of skin contact: Wash with water and soap. Get medical attention if symptoms occur.

In case of eye contact: If in eyes, rinse well with water. Get medical attention if irritation develops and persists.

If swallowed: If swallowed, DO NOT induce vomiting. Get medical attention if symptoms occur. Rinse mouth thoroughly with water.

Most important symptoms and effects, both acute and delayed: Contact with dust can cause mechanical irritation or drying of the skin. Dust contact with the eyes can lead to mechanical irritation.

Protection of first-aiders: No special precautions are necessary for first aid responders.

Notes to physician: Treat symptomatically and supportively.

SECTION 5. FIRE-FIGHTING MEASURES

Suitable extinguishing media: Water spray
Alcohol-resistant foam
Carbon dioxide (CO2)
Dry chemical

Unsuitable extinguishing media: None known.

Specific hazards during fire fighting: Avoid generating dust; fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard. Exposure to combustion products may be a hazard to health.

Hazardous combustion products: Carbon oxides

Specific extinguishing methods: Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.
Use water spray to cool unopened containers.
Remove undamaged containers from fire area if it is safe to do so.
Evacuate area.

Special protective equipment for fire-fighters: Wear self-contained breathing apparatus for firefighting if necessary.
Use personal protective equipment.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures: Follow safe handling advice (see section 7) and personal protective equipment recommendations (see section 8).

Environmental precautions: Avoid release to the environment. Prevent further leakage or spillage if safe to do so.
Retain and dispose of contaminated wash water. Local authorities should be advised if significant spillages cannot be contained.

Methods and materials for containment and cleaning up:
- Sweep up or vacuum up spillage and collect in suitable container for disposal.
- Avoid dispersal of dust in the air (i.e., clearing dust surfaces with compressed air).
- Dust deposits should not be allowed to accumulate on surfaces, as these may form an explosive mixture if they are released into the atmosphere in sufficient concentration.
- Local or national regulations may apply to releases and disposal of this material, as well as those materials and items employed in the cleanup of releases. You will need to determine which regulations are applicable.
- Sections 13 and 15 of this SDS provide information regarding certain local or national requirements.

SECTION 7. HANDLING AND STORAGE

Technical measures:
- Static electricity may accumulate and ignite suspended dust causing an explosion.
- Provide adequate precautions, such as electrical grounding and bonding, or inert atmospheres.

Local/Total ventilation:
- Use only with adequate ventilation.

Advice on safe handling:
- Do not breathe dust.
- Handle in accordance with good industrial hygiene and safety practice, based on the results of the workplace exposure assessment
- Minimize dust generation and accumulation.
- Keep container closed when not in use.
- Keep away from heat and sources of ignition.
- Take precautionary measures against static discharges.
- Take care to prevent spills, waste and minimize release to the environment.

Conditions for safe storage:
- Keep in properly labeled containers.
- Store in accordance with the particular national regulations.

Materials to avoid:
- Do not store with the following product types:
  - Strong oxidizing agents

SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Ingredients with workplace control parameters:

SAFETY DATA SHEET
generated according to the Hazardous Products Regulations

Tricaine Mesylate

Engineering measures
All engineering controls should be implemented by facility design and operated in accordance with GMP principles to protect products, workers, and the environment. Containment technologies suitable for controlling compounds are required to control at source and to prevent migration of the compound to uncontrolled areas (e.g., open-face containment devices).

Minimize open handling.

Personal protective equipment
Respiratory protection
If adequate local exhaust ventilation is not available or exposure assessment demonstrates exposures outside the recommended guidelines, use respiratory protection.

Filter type
Particulates type

Hand protection
Material
Chemical-resistant gloves

Remarks
Consider double gloving.

Eye protection
Wear safety glasses with side shields or goggles. If the work environment or activity involves dusty conditions, mists or aerosols, wear the appropriate goggles. Wear a faceshield or other full face protection if there is a potential for direct contact to the face with dusts, mists, or aerosols.

Skin and body protection
Work uniform or laboratory coat. Additional body garments should be used based upon the task being performed (e.g., sleevelets, apron, gauntlets, disposable suits) to avoid exposed skin surfaces. Use appropriate degowning techniques to remove potentially contaminated clothing.

Hygiene measures
If exposure to chemical is likely during typical use, provide eye flushing systems and safety showers close to the working place. When using do not eat, drink or smoke. Wash contaminated clothing before re-use. The effective operation of a facility should include review of engineering controls, proper personal protective equipment, appropriate degowning and decontamination procedures, industrial hygiene monitoring, medical surveillance and the use of administrative controls.

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance
Crystalline powder

Color
white

Odor
No data available

Odor Threshold
No data available

pH
4.1 - 7.4
Melting point/freezing point : 149 - 150 °C

Initial boiling point and boiling range : No data available

Flash point : No data available

Evaporation rate : Not applicable

Flammability (solid, gas) : May form explosive dust-air mixture during processing, handling or other means.

Flammability (liquids) : Not applicable

Upper explosion limit / Upper flammability limit : No data available

Lower explosion limit / Lower flammability limit : No data available

Vapor pressure : Not applicable

Relative vapor density : Not applicable

Relative density : No data available

Density : No data available

Solubility(ies)
   Water solubility : 110 g/l

Partition coefficient: n-octanol/water: log Pow: 1.7

Autoignition temperature : No data available

Decomposition temperature : No data available

Viscosity
   Viscosity, kinematic : Not applicable

Explosive properties : Not explosive

Oxidizing properties : The substance or mixture is not classified as oxidizing.

Molecular weight : No data available

Particle size : No data available

SECTION 10. STABILITY AND REACTIVITY

Reactivity : Not classified as a reactivity hazard.
SECTION 1. IDENTIFICATION AND REASON FOR CLASSIFICATION

**Product Name:** Tricaine Mesylate

**Version:** 3.1

**Revision Date:** 09/30/2023

**SDS Number:** 4834821-00010

**Date of last issue:** 04/04/2023

**Date of first issue:** 09/10/2019

**CAS Number:** 24011-28-5

**EC Number:** 234-924-6

**EC Name:** Tricaine mesylate

**Identifier:** Tricaine mesylate

**Synonyms:**

**Hazard Categories:**
- Skin corrosion/irritation
- Respiratory or skin sensitization
- Skin sensitization
- Respiratory sensitization
- Germ cell mutagenicity

**Labels:**
- Poison
- No risk phrases
- No safety phrases

**Signal words:**
- Danger

**Precautionary statements:**
- Precautions for use
- First-aid measures
- Fire-fighting measures
- Spill response measures
- Storage and disposal
- Transport information

**Regulatory information:**
- Transportation
- Import notice

**Disclaimer:**
- The information provided is not intended to be all-inclusive and is subject to change without notice.

**Confidentiality:**
- Confidentiality information

**Revision information:**
- Revision history

**Additional information:**
- Additional information

**Additional references:**
- Additional references

**Supplementary information:**
- Supplementary information

**Section 1. Identification and Reason for Classification**

**Section 2. Hazards Identification**

**Chemical stability**

**Possibility of hazardous reactions**

**Conditions to avoid**

**Incompatible materials**

**Hazardous decomposition products**

**SECTION 11. TOXICOLOGICAL INFORMATION**

**Information on likely routes of exposure**

**Inhalation**
- Not classified based on available information.

**Skin contact**
- Not classified based on available information.

**Ingestion**
- Acute toxicity
  - Not classified based on available information.

**Eye contact**
- Not classified based on available information.

**Acute toxicity**

**Product:**
- Acute oral toxicity
  - Acute toxicity estimate: > 2,000 mg/kg
  - Method: Calculation method

**Components:**

**3-Ethoxycarbonylanilinium methanesulphonate:**
- Acute oral toxicity
  - LD50 (Rat): 5,200 mg/kg
  - LD50 (Mouse): 2,400 mg/kg
  - LD50 (Dog): 4,000 mg/kg

**Skin corrosion/irritation**
- Not classified based on available information.

**Serious eye damage/eye irritation**
- Not classified based on available information.

**Respiratory or skin sensitization**

**Skin sensitization**
- Not classified based on available information.

**Respiratory sensitization**
- Not classified based on available information.

**Germ cell mutagenicity**
- Not classified based on available information.
Components:

3-Ethoxycarbonylanilinium methanesulphonate:
Genotoxicity in vitro: Test Type: Bacterial reverse mutation assay (AMES)
Test system: Salmonella typhimurium
Result: negative

Germ cell mutagenicity - Assessment: Weight of evidence does not support classification as a germ cell mutagen.

Carcinogenicity
Not classified based on available information.

Reproductive toxicity
Not classified based on available information.

Components:

3-Ethoxycarbonylanilinium methanesulphonate:
Reproductive toxicity - Assessment: Weight of evidence does not support classification for reproductive toxicity

STOT-single exposure
Not classified based on available information.

Components:

3-Ethoxycarbonylanilinium methanesulphonate:
Assessment: The substance or mixture is not classified as specific target organ toxicant, single exposure.

STOT-repeated exposure
Not classified based on available information.

Aspiration toxicity
Not classified based on available information.

Experience with human exposure

Components:

3-Ethoxycarbonylanilinium methanesulphonate:
General Information: Target Organs: Blood
Symptoms: Blood disorders
Target Organs: Central nervous system
Symptoms: seizures, Coma, Irregular cardiac activity, Respiratory disorders
Skin contact: Target Organs: Eye
Symptoms: Eye disease
Target Organs: Skin
Symptoms: Sensitization
SECTION 12. ECOLOGICAL INFORMATION

Ecotoxicity

Components:

3-Ethoxycarbonylanilinium methanesulphonate:
Toxicity to microorganisms: EC50 (Tetrahymena pyriformis): 52.5 mg/l
Exposure time: 48 h
Method: No data available

Persistence and degradability
No data available

Bioaccumulative potential

Components:

3-Ethoxycarbonylanilinium methanesulphonate:
Bioaccumulation: Bioconcentration factor (BCF): 4.76
Method: OECD Test Guideline 305

Mobility in soil
No data available

Other adverse effects
No data available

SECTION 13. DISPOSAL CONSIDERATIONS

Disposal methods
Waste from residues: Do not dispose of waste into sewer.
Dispose of in accordance with local regulations.
Contaminated packaging: Empty containers should be taken to an approved waste handling site for recycling or disposal.
If not otherwise specified: Dispose of as unused product.

SECTION 14. TRANSPORT INFORMATION

International Regulations

UNRTDG
Not regulated as a dangerous good

IATA-DGR
Not regulated as a dangerous good

IMDG-Code
Not regulated as a dangerous good

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code
Not applicable for product as supplied.
SAFETY DATA SHEET

Tricaine Mesylate

Version 3.1  Revision Date: 09/30/2023  SDS Number: 4834821-00010  Date of last issue: 04/04/2023  Date of first issue: 09/10/2019

Sources of key data used to compile the Material Safety Data Sheet:

Revision Date: 09/30/2023  Date format: mm/dd/yyyy

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and shall not be considered a warranty or quality specification of any type. The information provided relates only to the specific material identified at the top of this SDS and may not be valid when the SDS material is used in combination with any other materials or in any process, unless specified in the text. Material users should review the information and recommendations in the specific context of their intended manner of handling, use, processing and storage, including an assessment of the appropriateness of the SDS material in the user’s end product, if applicable.
