SAFETY DATA SHEET
according to GB/T 16483 and GB/T 17519

Palonosetron Formulation

1. PRODUCT AND COMPANY IDENTIFICATION

   Product name : Palonosetron Formulation

   Manufacturer or supplier’s details
   Company : MSD
   Address : 199 Wenhai North Road
             HEDA, Hangzhou - Zhejiang Province - CHINA 310018
   Telephone : 908-740-4000
   Emergency telephone number : 86-571-87268110
   E-mail address : EHSDATASTEWARD@msd.com

   Recommended use of the chemical and restrictions on use
   Recommended use : Pharmaceutical

2. HAZARDS IDENTIFICATION

   Emergency Overview
   Appearance : Aqueous solution
   Colour : clear
   Odour : No data available

   Not a hazardous substance or mixture.

   GHS Classification
   Not a hazardous substance or mixture.

   GHS label elements
   Not a hazardous substance or mixture.

   Physical and chemical hazards
   Not classified based on available information.

   Health hazards
   Not classified based on available information.

   Environmental hazards
   Not classified based on available information.

   Other hazards which do not result in classification
   None known.

3. COMPOSITION/INFORMATION ON INGREDIENTS

   Substance / Mixture : Mixture
   Components
SAFETY DATA SHEET  
according to GB/T 16483 and GB/T 17519

Palonosetron Formulation

Version 1.2  Revision Date: 08/29/2019  SDS Number: 4720320-00003  Date of last issue: 2019/08/14  Date of first issue: 2019/08/02

4. FIRST AID MEASURES

If inhaled: If inhaled, remove to fresh air. Get medical attention if symptoms occur.
In case of skin contact: Wash with water and soap as a precaution. Get medical attention if symptoms occur.
In case of eye contact: Flush eyes with water as a precaution. Get medical attention if irritation develops and persists.
If swallowed: If swallowed, DO NOT induce vomiting. Get medical attention if symptoms occur. Rinse mouth thoroughly with water.

Most important symptoms and effects, both acute and delayed: None known.
Protection of first-aiders: No special precautions are necessary for first aid responders.
Notes to physician: Treat symptomatically and supportively.

5. FIREFIGHTING MEASURES

Suitable extinguishing media: Water spray
                          : Alcohol-resistant foam
                          : Carbon dioxide (CO2)
                          : Dry chemical

Unsuitable extinguishing media: None known.
Specific hazards during firefighting: Exposure to combustion products may be a hazard to health.
Hazardous combustion products: Carbon oxides

Specific extinguishing methods: Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.
Use water spray to cool unopened containers.
Remove undamaged containers from fire area if it is safe to do so.
Evacuate area.

Special protective equipment for firefighters: Wear self-contained breathing apparatus for firefighting if necessary.
Use personal protective equipment.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures: Follow safe handling advice and personal protective equipment recommendations.

Environmental precautions: Discharge into the environment must be avoided.
Prevent further leakage or spillage if safe to do so.
Prevent spreading over a wide area (e.g. by containment or oil barriers).
Retain and dispose of contaminated wash water. Local authorities should be advised if significant spillages cannot be contained.

Methods and materials for containment and cleaning up: Soak up with inert absorbent material. For large spills, provide dyking or other appropriate containment to keep material from spreading. If dyked material can be pumped, store recovered material in appropriate container. Clean up remaining materials from spill with suitable absorbent.

Local or national regulations may apply to releases and disposal of this material, as well as those materials and items employed in the cleanup of releases. You will need to determine which regulations are applicable. Sections 13 and 15 of this SDS provide information regarding certain local or national requirements.

7. HANDLING AND STORAGE

Handling
Technical measures: See Engineering measures under EXPOSURE CONTROLS/PERSONAL PROTECTION section.
Local/Total ventilation: Use only with adequate ventilation.
Advice on safe handling: Handle in accordance with good industrial hygiene and safety practice, based on the results of the workplace exposure assessment.
Avoidance of contact: Oxidizing agents

Storage
Conditions for safe storage: Keep in properly labelled containers. Store in accordance with the particular national regulations.
Materials to avoid: Do not store with the following product types:
Strong oxidizing agents

Packaging material: Unsuitable material: None known.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Engineering measures: Use closed processing systems or containment technologies to control at source (e.g., glove boxes/isolators) and to prevent leakage of compounds into the workplace.
All engineering controls should be implemented by facility design and operated in accordance with GMP principles to protect products, workers, and the environment. No open handling permitted. Totally enclosed processes and materials transport systems are required. Operations require the use of appropriate containment technology designed to prevent leakage of compounds into the workplace.

**Personal protective equipment**
- **Respiratory protection**: No personal respiratory protective equipment normally required.
- **Eye/face protection**: Wear safety glasses with side shields or goggles. If the work environment or activity involves dusty conditions, mists or aerosols, wear the appropriate goggles. Wear a faceshield or other full face protection if there is a potential for direct contact to the face with dusts, mists, or aerosols.
- **Skin and body protection**: Work uniform or laboratory coat. Additional body garments should be used based upon the task being performed (e.g., sleevelets, apron, gauntlets, disposable suits) to avoid exposed skin surfaces. Use appropriate degowning techniques to remove potentially contaminated clothing.
- **Hand protection**: Chemical-resistant gloves. Consider double gloving.
- **Hygiene measures**: If exposure to chemical is likely during typical use, provide eye flushing systems and safety showers close to the working place. When using do not eat, drink or smoke. Wash contaminated clothing before re-use. The effective operation of a facility should include review of engineering controls, proper personal protective equipment, appropriate degowning and decontamination procedures, industrial hygiene monitoring, medical surveillance and the use of administrative controls.

**9. PHYSICAL AND CHEMICAL PROPERTIES**
- **Appearance**: Aqueous solution
- **Colour**: clear
- **Odour**: No data available
- **Odour Threshold**: No data available
- **pH**: 4.5 - 5.5
10. STABILITY AND REACTIVITY

Reactivity: Not classified as a reactivity hazard.
Chemical stability: Stable under normal conditions.
Possibility of hazardous reactions: Can react with strong oxidizing agents.
11. TOXICOLOGICAL INFORMATION

Exposure routes

- Inhalation
- Skin contact
- Ingestion
- Eye contact

**Acute toxicity**
Not classified based on available information.

**Components:**

**Palonosetron Hydrochloride:**

- **Acute oral toxicity**
  - LDLo (Rat): 250 mg/kg
  - LDLo (Mouse): 100 mg/kg
  - LDLo (Dog): 50 mg/kg

**Skin corrosion/irritation**
Not classified based on available information.

**Components:**

**Palonosetron Hydrochloride:**

- **Remarks**
  - No skin irritation

**Serious eye damage/eye irritation**
Not classified based on available information.

**Respiratory or skin sensitisation**

**Skin sensitisation**
Not classified based on available information.

**Respiratory sensitisation**
Not classified based on available information.

**Germ cell mutagenicity**
Not classified based on available information.

**Components:**

**Palonosetron Hydrochloride:**

- **Genotoxicity in vitro**
  - Test Type: Ames test
  - Result: negative
  - Test Type: DNA damage and repair, unscheduled DNA synthesis in mammalian cells (in vitro)
  - Result: negative
SAFETY DATA SHEET
according to GB/T 16483 and GB/T 17519

Palonosetron Formulation

Test Type: In vitro mammalian cell gene mutation test
Test system: Chinese hamster ovary cells
Result: negative

Test Type: Chromosome aberration test in vitro
Test system: Chinese hamster cells
Result: positive

Genotoxicity in vivo
Test Type: In vivo micronucleus test
Species: Mouse
Result: negative

Carcinogenicity
Not classified based on available information.

Reproductive toxicity
Not classified based on available information.

Components:

Palonosetron Hydrochloride:
Effects on fertility
Test Type: Fertility
Species: Rat, male
Application Route: Intravenous
Fertility: NOAEL: 10 mg/kg body weight
Symptoms: No adverse effects

Test Type: Fertility
Species: Rat
Application Route: Oral
Fertility: NOAEL: > 30 mg/kg body weight
Symptoms: No effects on fertility

Effects on foetal development
Test Type: Development
Species: Rat
Application Route: Oral
Developmental Toxicity: NOAEL: 18 mg/kg body weight
Embryo-foetal toxicity: LOAEL: > 60 mg/kg body weight
Symptoms: Reduced body weight, No effects on foetal development, Reduced foetal weight

Test Type: Development
Species: Rabbit
Application Route: Oral
General Toxicity Maternal: LOAEL: 120 mg/kg body weight
Developmental Toxicity: NOAEL: 90 mg/kg body weight
Symptoms: No effects on foetal development

STOT - single exposure
Not classified based on available information.
STOT - repeated exposure
Not classified based on available information.

**Components:**

**Palonosetron Hydrochloride:**
- Exposure routes: Ingestion
- Target Organs: Gastrointestinal tract, Kidney, Central nervous system, Testis
- Assessment: May cause damage to organs through prolonged or repeated exposure.

**Repeated dose toxicity**

**Components:**

**Palonosetron Hydrochloride:**
- Species: Mouse
  - NOAEL: 60 mg/kg
  - LOAEL: 150 mg/kg
  - Application Route: Oral
  - Exposure time: 3 Months
  - Target Organs: Kidney, male reproductive organs
  - Remarks: May cause damage to organs.

- Species: Rat
  - NOAEL: 18 mg/kg
  - LOAEL: > 60 mg/kg
  - Application Route: Oral
  - Exposure time: 3 Months
  - Target Organs: male reproductive organs, Liver
  - Remarks: Significant toxicity observed in testing.

- Species: Dog
  - LOAEL: 20 mg/kg
  - Application Route: Oral
  - Exposure time: 3 Months
  - Target Organs: Central nervous system, Testis
  - Remarks: Significant toxicity observed in testing.

- Species: Rat
  - NOAEL: 7 mg/kg
  - Application Route: Intravenous
  - Exposure time: 6 Months
  - Target Organs: Central nervous system, Gastrointestinal tract
  - Remarks: Significant toxicity observed in testing.

- Species: Dog
  - NOAEL: 6 mg/kg
  - Application Route: Intravenous
  - Exposure time: 9 Months
  - Target Organs: Central nervous system, Gastrointestinal tract
  - Symptoms: Vomiting
  - Remarks: Significant toxicity observed in testing.
Aspiration toxicity
Not classified based on available information.

**Components:**

**Palonosetron Hydrochloride:**
Not applicable

**Experience with human exposure**

**Components:**

**Palonosetron Hydrochloride:**
Ingestion:
Symptoms: The most common side effects are: Headache, Diarrhoea, Dizziness, Weakness, anxiety

12. ECOLOGICAL INFORMATION

**Ecotoxicity**

**Components:**

**Palonosetron Hydrochloride:**

**Ecotoxicology Assessment**

Acute aquatic toxicity: Toxic effects cannot be excluded, No data available

Chronic aquatic toxicity: Toxic effects cannot be excluded, No data available

**Persistence and degradability**
No data available

**Bioaccumulative potential**
No data available

**Mobility in soil**
No data available

**Other adverse effects**
No data available

13. DISPOSAL CONSIDERATIONS

**Disposal methods**

- **Waste from residues:** Dispose of in accordance with local regulations.
- **Contaminated packaging:** Empty containers should be taken to an approved waste handling site for recycling or disposal. If not otherwise specified: Dispose of as unused product.

14. TRANSPORT INFORMATION

International Regulations
UNRTDG
Not regulated as a dangerous good

IATA-DGR
Not regulated as a dangerous good

IMDG-Code
Not regulated as a dangerous good

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code
Not applicable for product as supplied.

National Regulations

GB 6944/12268
Not regulated as a dangerous good

Special precautions for user
Not applicable

15. REGULATORY INFORMATION

National regulatory information
Law on the Prevention and Control of Occupational Diseases

The components of this product are reported in the following inventories:
AICS : not determined
DSL : not determined
IECSC : not determined

16. OTHER INFORMATION
