Public Policy Statement

Human Rights

Our Policy
In line with the UN Guiding Principles on Business and Human Rights (UNGPs), we base our human rights policy commitments on the International Bill of Human Rights and the principles concerning fundamental rights set out in the International Labour Organization’s (ILO) Declaration of Fundamental Principles and Rights at Work. We follow the Organization for Economic Co-operation and Development (OECD) Guidelines for Multinational Enterprises and are committed to upholding the 10 internationally recognised principles of the United Nations Global Compact (UNGC), including those related to respect for human rights.

Our Aim
We believe that dignity and respect for people is essential in business. Respect for people is one of our core values, as described in our company’s Code of Conduct (Our Values & Standards). We strive to avoid causing or contributing to adverse human rights impacts through our own activities and seek to prevent or mitigate adverse human rights impacts that are directly linked to our operations and products.

Our Responsibility
We take our responsibility to respect human rights seriously. For this reason, respect for human rights is reflected and embedded in our Code of Conduct (Our Values & Standards) and several our Corporate Policies. Our Code of Conduct and (Our Values and Standards) Corporate Policies serve as our standards of conduct, which we use to navigate the decisions and actions that we face.
